Re: Amendment of §73.202(b), Table of Allotments
FM Broadcast Stations
Rockmart and Aragon, Georgia, and
Lynchburg and Chattanooga, Tennessee
MB Docket No. 05-282
RM - 11229

Dear Ms. Dortch:

On December 20, 2005, acting on behalf of Woman's World Broadcasting, Inc., this office filed reply comments in Docket No. 05-282.

Due to a delay in a fax transmission, the reply comments were accompanied by an engineering statement from Clyde Scott, which was not signed. We have now received the signed statement and I am enclosing it herewith.

Please associate the signed declaration with the reply comments.

Very truly yours,

LAUREN A. COLBY

DECLARATION

Clyde Scott hereby declares under penalty of the laws of perjury that the following is true and correct:

1. I am an experienced consulting radio engineer and I have been employed by Women's World Broadcasting, Inc. to prepare the following statement.

2. I understand that a question has been raised as to whether Women's World Broadcasting, Inc. will be able to serve the community of Aragon, Georgia from the transmitter site specified in FCC Docket No. 05-282

3. I have calculated the terrain roughness factor on the pertinent radial (180 degrees) from the transmitter site towards Aragon and I have determined that the Delta H is 154.3 meters. Under these circumstances, I understand that Longley-Rice can be used to supplement the Commission's 50-50 curves, in order to demonstrate the coverage.

4. I have prepared the attached map, which shows that, on the basis of either the 50-50 curves or Longley-Rice, the Women's World Broadcasting, Inc. proposal will place better than a 70 dbu contour over the entire city of Aragon.

Further declarant sayeth not.

CLYDE SCOTT
